The Elmhurst Honor Guard Training Academy

HONOR GUARD TRAINING 101

This week long training class combines both classroom and practical applications to provide you and your department with the knowledge to organize, train, and maintain a thorough honor guard unit. With instructors from the fire, law enforcement, and military services, you will learn basic maneuvers such as marching and flag etiquette to advanced procedures such as the firing party ceremony and parade tool demonstrations. All attendees will be graded on their skills by participating in a class competition and mock funeral. Regardless of your previous experience, whether a member of a current Honor Guard, military experience, or no instruction at all, this course is an essential part of your Honor Guard training.
